To see if the Town will vote to amend the agreement between the Towns of Bellingham, Blackstone, Douglas, Grafton, Hopedale, Mendon, Milford, Millville, Northbridge, Sutton, Uxbridge, Upton, and Millbury, with respect to the Establishment of a Regional Vocational High School District, so that the Annual Meeting will take place on the first regular meeting of April of each year instead of the first of April.

Voted (unanimously): Amending agreement as specified above.

(Recommended by Finance Committee)

ARTICLE 6. To see if the Town will vote to raise and appropriate a sum of money to pay Norfolk County land damages for taking on Blackstone St.; or act or do anything in relation thereto.

Voted (unanimously): To transfer the sum of $850.00 from the Conservation Commission operating expenses to the land damage account to pay Norfolk County for land damages in the matter of relocation of Blackstone Street and including the expense of said suit.

(Recommended by Finance Committee)

ARTICLE 7. To see if the Town will vote to waive the provisions of Massachusetts General Laws Chapter 31, Section 20C and authorize Selectmen to appoint Robert Daley to the Regular Police Force, with seniority effective August 1, 1965, if he shall otherwise be eligible for certification and appointment, "that the General Court be authorized and requested to pass a special act to accomplish the above"; or act or do anything in relation thereto.

Voted (unanimously): That the Town waive the provisions of Massachusetts General Laws annotated Chapter 31, Section 20C and authorize the Board of Selectmen to appoint Robert Daley to the Regular Police Force, if he shall otherwise be eligible for certification and appointment and that the General Court be authorized and requested to pass a Special Act to accomplish the above.

PUBLICATION OF TOWN BY-LAWS

Commonwealth of Massachusetts
Dept. of the Attorney General
State House
Boston, Massachusetts

Re: Request for approval of By-Laws

Gentlemen:

I hereby certify that the following amendment to the Town By-Laws was unanimously adopted at the Annual Town Meeting held March 24, 1967, under Article 24, of the Warrant:

Voted unanimously: To amend ARTICLE 7, General Provisions, of the Town By-Laws by revising section 4 to read as follows:

"SECTION 4. Any or all of these by-laws may be repealed or amended or other by-laws may be adopted at an Annual Town Meeting only, an article or articles having been inserted in the warrant for such meeting by the Selectmen; except that amendments to the Zoning By-Law and/or Map may be adopted at either an Annual or a Special Town Meeting in accordance with Chapter 40A of the General Laws."

I further certify that the following amendment to the Zoning By-Law was unanimously voted at the Annual Town Meeting held March 24, 1967, under ARTICLE 25:

Voted unanimously: To amend the Zoning By-Law by adopting, or amending and adopting, the proposed "Revision A" to the Zoning By-Law as set forth in the January 5, 1967 printed report of the Bellingham Planning Board heretofore distributed to the Town Meeting with the following exceptions:

The replacing of SECTION 2340 with the following:

Restoration: Any nonconforming building or structure in existence at the time of adoption of this By-Law or any amendment thereto may be reconstructed on the old foundations if destroyed by fire or other accidental or natural cause within a period of two (2) years from the date of the catastrophe or such reconstruction must comply with this by-law.

Under SECTION 2400: Accessory Uses – The deletion of parking not more than three (3) non-commercial vehicles per dwelling unit.

The deletion of one (1) light commercial vehicle.

The deletion of "Note 2" at the bottom of page 5.

Private Stable: Change under Residential from Yes to Special Permit.

Under SECTION 3512: Change SECTION 9 – Chapter 37 of the General Laws to read SECTION 9 – Chapter 87 of the General Laws.

I further certify that the following amendment to the Zoning Map was unanimously adopted at the Annual Town Meeting of March 24, 1967 under ARTICLE 26 of the warrant:

Voted unanimously: To amend the Zoning Map by adopting or amending and adopting the proposed "Revision B" to the Zoning By-Law as set forth in the January 5, 1967 printed report of the Bellingham Planning Board heretofore distributed to the Town Meeting; with the following exception:

That the proposed residential section on Hartford Ave. bounded by Route 495 on the east and Farm Street on the west be as follows:

To maintain as an industrial area a section of land 250 feet east of Cedar Hill Road, and 200 feet west of Deerfield Lane, and for a depth northerly of 400 feet from the Hartford Ave. boundary.

CONSERVATION COMMISSION ANNUAL REPORT 1967

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of Bellingham:

The Conservation Commission reactivated in 1966, due to the resignation of two members, had to be reorganized during the year. The reorganization was accomplished at a meeting held on June 14, 1967. The officers elected were: Francis Pretto, Chairman; Reuben Patton, Vice Chairman; George Holmes, Secretary. Other members are Joseph Mason, Theodore Arcand, and Joseph Chamberlain.

The members of the Commission meet regularly on the second and fourth Wednesdays of each month.

This commission contracted for a special soil survey with the Soil Conservation Service, U.S. Department of Agriculture. The Survey is under way and is expected to be completed in mid 1968.

The soil survey is actually an inventory of the soil resources in Bellingham. From borings and studies of the landscape, maps are prepared showing the kinds of soils in the town. From this base other maps will be compiled to show limitations of soils for different land uses. Included in these will be soil limitations for Septic Tank Sewage disposal, Commercial and Industrial Sites, Home Sites, School Sites, Depth of Seasonal High Water Table, and many others. This report should provide a base for future Town Planning.

The Commission investigated several properties as to the possibility of obtaining them for Conservation uses. We also investigated several problems having to do with dumping rubbish and contaminants near and into streams.

We expect the coming year to be a busy and productive one. Plans are being formulated that should help preserve our natural resources, and protect our beautiful countryside.

We wish to thank the members of the Board of Selectmen and all other Boards and Departments for their cooperations and assistance during the year.

Respectfully submitted

Francis Pretto, Chairman
Reuben Patton, Vice Chairman
George C. Holmes, Secretary
Joseph Mason
Theodore Arcand
Joseph Chamberlain

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectmen:

In the year 1967, eighty-five (85) different types of trees had to be cut down and removed. They were as follows: 40 elm, 26 oak, 6 white ash; 4 pine; 9 birch.

Trimming and cutting was done on the following town streets: Hartford Ave., Depot St., No. Main St., Silver Lake Rd., Center St., Maple St., Wrentham St., Paine St., Cross St., Irving St., and Pulaski Blvd.

There are still an indefinite number of trees to be removed and also trimming to be done in the following year to come.

I wish to thank the Board of Selectmen and all those concerned for their cooperation.

Respectfully submitted,
Sylvio Dalpe
Tree Warden

Less Total Estimated Receipts and Available Funds	990,717.99
Net Amount to be Raised by Taxation	$1,420,135.99

REVENUE

Personal Property	– Value	$ 1,334,590.00	
	– Taxes		$ 105,432.61
Real Estate	– Value	$16,641,815.00	
	– Taxes		$1,314,703.38
Total Taxes Levied			$1,420,135.99

Your Tax Assessors believe that the work required of them to comply with the demands of the townspeople and the various state departments, assuring the town of its just re-imbursement, it is now imperative that the town considers having a full-time assessor. The Board has requested a full-time assessor-clerk which would cost the town approximately $3500 more than if the board continued operating as it now does, and for this reason the Assessors hope that the townspeople act favorably on this important matter.

The cooperation received from other town officials as well as State Departments of Corporations and Taxation personnel, was greatly appreciated.

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

As Chief of the Fire Department and as Forest Fire Warden, I hereby submit the following combined report for the Fire Department, the Forest Fire Department and the Ambulance-Rescue Division.

The alarms answered by the above-mentioned departments are as follows:

FIRE DEPARTMENT

Building Fires	34
Chimney Fires	2
Auto & Truck Fires	17
Miscellaneous	33
Dumps	4
Wash Downs	6
Mutual Aids	4
False Alarms	3
Flooding	11
Collapsed Roof at Warwick	1
	115

FOREST FIRE DEPARTMENT

Woodlands	3
Brush	42
Grass	34
Mutual Aid	1
False Alarms	3
	83

AMBULANCE-RESCUE DIVISION	301

The Town has purchased a new Ambulance-Rescue Vehicle. This vehicle was purchased to replace the twelve year old Rescue Truck and it has increased the efficiency of the department.

The new Police-Fire Station has given the Fire Department more floor space and equipment so that we are now in a position to start a Fire Alarm System that should eventually cover all sections of the town. This, I believe, should be our next move forward.

I wish to express my heartfelt thanks to all the officers and men of the three stations, and the officers and men of the Ambulance-Rescue Division for their splendid cooperation.

These devoted men are on call for any emergency twenty-four hours a day, whether it be for a fire or for ambulance service. These underpaid servants devote much of their free time to practice and drill sessions without pay in order that they may be best prepared for any emergency that might arise.

The Highway and Water Departments have been most cooperative in keeping the Fire Department posted of all highways and hydrants under repairs.

To the Honorable Board of Selectmen, I wish to express my sincere thanks for their cooperation, understanding and assistance that has been given to the three divisions that come under the jurisdiction of the Fire Department.

Respectfully submitted,

Peter Kornicki

REPORT OF THE BELLINGHAM CIVILIAN DEFENSE

To the Honorable Selectmen:

I hereby submit the annual report of the Civilian Defense.

Our aims for 1967 were accomplished as follows:

The Control Center was manned month by month throughout the year by our able radio officer, Richard King. Our purpose is to train until we become second to none. Each exercise has proven this. The temporary Control Center has given us a chance to iron out many problems which will be very valuable when permanent headquarters are approved. We purchased four walkie talkie radios for the purpose of off the road communications. They are a five watt in-put which enables us to have a strong signal if we ever have a search party out. The auxiliary police have been very helpful in testing out this equipment. At this time I would like to thank Chief Ernest Lamarre for his untiring effort in helping us.

Six American Red Cross Standard First Aid courses were held under the direction of Assistant Director-Medical, William H. Cummings. In March the following town residents completed a First Aid Instructors Course and now are certified instructors: Harriet Lamarre, Marleen Trudeau, Helen Fleuette, Chester Bartolet, Charles Mulvaney, and William H. Cummings. I again urge all town residents to avail themselves to a first aid course so as we can strive to meet our goal of having one trained first aider in each family. I would like to express my thanks to Harriet Lamarre, Marleen Trudeau, and Chester Bartolet for their support in teaching first aid classes.

Throughout the year one of my main goals has been to construct an underground control center for the town of Bellingham.

Mr. Andre Fleuette and I have worked on this project for many years. This year we have located town property which is ideal for this purpose. All we ask is for the towns residents to vote on this issue this coming March.

To the Honorable Board of Selectmen and the Heads of all departments, I wish to express my greatest appreciation for the cooperation and assistance given me this past year.

Respectfully submitted,
Victor J. Denault
C. D. Director

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

To the Honorable Board of Selectmen:

Gentlemen:

In 1967 the Bellingham Industrial Development Commission continued in its efforts to attract new industry to Bellingham. A concentrated effort was made toward laying the basic foundations that will be needed to attract industry not only at this time; but upon the completion of route 495, which seems to be the key to Bellingham's industrial growth.

The Commission met with officials of the State Department of Commerce to inform them of our desire and our progress in attracting industry. Our brochure was completed and is presently being made available to all interested industries. We have received inquiries for this brochure not only from our personal contacts; but also as a result of a mass mailing describing Bellingham, which was made for us by an outside firm.

The Commission also met with federal authorities. One of its members was sent to Washington, D.C., to meet with various federal assistance agencies.

In addition to refurbishing our road signs, we also completed a movie depicting the advantages of Bellingham as an industrial site. This film has been made available to all interested industries. At the invitation of the Bellingham Industrial Development Commission representatives of New England Electric Company counselled us regarding site development and power requirements.

We certainly feel that the progress made this year toward future development of industry in Bellingham will prove fruitful in the years to come.

REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of Bellingham:

1967 was a year of many developments and changes for the Zoning Board of Appeals.

The Board began the year with three regular members and one alternate member. This membership spent a considerable amount of time at the beginning of the year working with the Planning Board on the revisions to the Zoning By-laws. At its reorganizational meeting in April, Michele Parisi was welcomed back for a new term and was renamed chairman. Matthew Pytko was renamed Clerk of the Board. Carl Rosenlund and Joseph Chiappone were the other members of the Board at that time.

At the Annual Town Meeting, the citizens of Bellingham voted to give the Town a new and up-to-date Zoning by-law. The new law provided for the enlargement of the Zoning Board of Appeals to five regular members and three alternate members. The Board reached this membership when the new law became effective in October with the naming of Joseph Chiappone and Edward O. Brisson as regular members and Richard Vose, Robert Mowry and Normand Trudeau as alternate members.

At another reorganizational meeting in October, Parisi and Pytko were renamed to their respective positions as chairman and clerk.

During 1967, the Zoning Board of Appeals acted on 14 applications. Ten of these were approved, many with various stipulations, and four were denied. Two of the hearings were held under the provisions of the new by-law.

The Board wishes to thank the Board of Selectmen, Town Counsel Lee G. Ambler, and the many other interested citizens of Bellingham for their help and cooperation during 1967.

Respectfully submitted,

Michele Parisi, Chairman
Matthew Pytko, Clerk
Carl Rosenlund
Joseph Chiappone
Richard Vose
Robert Mowry
Normand Trudeau

REPORT OF THE SUPERINTENDENT OF STREETS & HIGHWAYS

To the Honorable Board of Selectmen, to the citizens of Bellingham.

CHAPTER 90 CONSTRUCTION

Sidewalks were completed on both sides of Blackstone St. for 1,200 ft. starting from South Main St. Reconstruction and drainage has been completed on another 1,800 ft. of said street and the Type I berm and sidewalks will be installed as soon as the weather permits. All work was done as per agreement with the Board of Selectmen and state and county engineers.

CHAPTER 90 MAINTENANCE

A section of South Main St. (126) from South school to Harpin St. was repaved with Type I. In 1968 agreement has already been reached with the Board of Selectmen and the state and county engineers to continue up South Main St. with this type of repaving.

CHAPTER 81 MAINTENANCE

As per agreement with the Board of Selectmen and the state and county engineers, all necessary maintenance such as patching, grading, gravel, and cleaning drainage systems were carried out by this department. The total state approved mileage was set at 63.86 miles in 1967.

HIGHWAY SWEEPING AND SAND CLEANING

Sand was removed from most of the streets in town this year. The Highway Department pressed into service its new mechanical street sweeper and a grader was used to widen and push some of the sand accumulated on such streets as Lake, Cross, North, and Maple. In 1968, we hope to do the rest of Lake St. and some of the other streets in town that have been narrowed during the years by the heavy accumulation of sand.

BRIDGES AND RAILINGS

Railings were painted and repaired on all bridges and railings in town and in 1968 this department, if granted appropriation, will rebuild the deck of the bridge on Railroad St. and eliminate the narrow dangerous bridge on Farm St.

SIGNS AND GUIDEPOSTS

The new speed limit signs which were approved by the state department of public safety have been installed. In 1968 the 26 stop signs which have been approved will be made and installed.

SIDEWALK MAINTENANCE

Sidewalk curbings were repainted on South Main St., Hartford Ave. and repairs were made on South Main, North Main, and Pulaski Blvd.

SNOW REMOVAL AND SANDING

The Highway Dept. sanding crews were called out 27 times during 1967 and plows were used for 10 snowstorms with a total accumulation of 65 inches. As in 1966 firemen were utilized to shovel out all town hydrants. In early 1968 – 3 snowplows will be installed on town owned trucks. This should enable this department to eliminate many problems that exist in our present snow removal operation.

TOWN APPROPRIATIONS

As per town meeting vote the following projects were completed in 1967.

GREEN ACRES DRAINAGE – 1089 ft. of 36 in. pipe and two manholes.

PAINE ST. BRIDGE – Paine St. bridge was completely removed and two culverts were installed with stone rip-rap and all necessary railings.

SUMMER ST. SURFACING – Summer St. was repaved with Type I.

HARTFORD AVE. SIDEWALKS – Sidewalks were installed from No. Main St. to Monique Dr., a distance of 2,200 ft.

MENDON ST. SIDEWALK – Sidewalks were installed from No. Main St. along Mendon St. a distance of 2,650 ft.

CHESTNUT ST. DRAINAGE – The balance of drainage and repaving was completed on Chestnut St.

LOWLAND ST. DRAINAGE – As per agreement as much drainage as possible was installed on Lowland St. and another section of this project should be done in 1968 if necessary funds are voted.

THE DEPOT ST. SIDEWALKS – Have not been completed as we requested the county commissioners to make a Chapter 90 layout on this street and as soon as new street lines are established this project will be done.

PAINE ST. IMPROVEMENT – This project has not been started due to the fact that street lines could not be established. The county commissioners have re-established the bounds and we hope to start this project in the summer of 1968.

In 1968 this department is asking for one more dump truck and one more automatic sander. This equipment is needed to enable the Highway Dept. to keep up with the ever increasing miles which this town has added to town maintenance. I again ask that a committee be formed to investigate the construction of a new town barn as our present barn is becoming increasingly inadequate for a town that has grown as fast as Bellingham.

I wish to thank the Board of Selectmen, the Police Department, the Fire Department, the Water Department, the Civilian Defense, the Town Counsel, and the State and County Engineers for their co-operation received this year. I would also like to thank the employees of the Highway Department for their co-operation and assistance in the past year.

Respectfully submitted,

Gerard L. Daigle

Superintendent of Highways

REPORT OF THE ZONING AGENT

To the Honorable Board of Selectmen, Taxpayers, and Citizens of Bellingham:

New construction being considerably better than the past year, accounted for a 50% increase in home construction.

Permits issued in 1967 were as follows:

Commercial	2
Commercial additions	3
Dwellings	146
Dwelling additions	34
Carports & Garages	13
Utility & tool sheds	10
Stables	3
Pumphouse	1
	212

Revenue to the town was the sum of $2,278.00

Your help is appreciated and I wish to thank all town boards and officials for their cooperation.

Respectfully submitted,

J. Eugene Corriveau

Zoning Agent

REPORT OF THE HEALTH AGENT

To the Honorable Board of Selectmen and to the citizens and taxpayers of Bellingham.

The annual report of the Health Agent is submitted.

From January 1967 through December 1967, 102 health permits were issued by me for the installation of and repairs of sewerage disposal systems. Four (4) permits were also issued for the removal of Offal from the Town of Bellingham. Offal removal permits are $5.00. Fifteen (15) Disposal Works Installers Permits were issued in compliance with the new state law. Installers permits are $5.00.

The fee for a health permit is $5.00 The fee for a repair permit is $2.00. Applications must be filled out and accompanied by a diagram showing locations of the new installation or repair. In addition, percolation tests must be taken and submitted with the application before a health permit can be issued. All installations are inspected upon completion and all existing laws rigidly enforced.

POLIO CLINICS

In 1967, two (2) free Polio clinics were held for pre-school children. The clinics were well attended. Oral Sabin vaccine was used in both clinics. It was made available by the Massachusetts Department of Public Health.

MEASLES CLINIC

In 1967, one (1) Measles Clinic was held for pre-school children. It was also well attended and it marked the second time such a clinic was held in Bellingham. Beginning in 1968, a Measles Clinic will be held yearly.

INFLUENZA CLINICS

In 1967, two (2) free Influenza clinics were held for all Policemen and Highway workers.

SWIMMING AREA WATER TESTS

Swimming areas in Bellingham are tested for bacteria content every other week beginning the middle of June and ending late in August. The dates vary from year to year. In 1967 swimming areas were tested six (6) times and all were found suitable for swimming.

With the growing of our Town, the duties of the Health Agent have been expanded and include many new areas, some of which are listed above. In addition, the investigating of claims of needy parents in regards to premature babies and the enforcing of the many local and state laws, along with the numerous reports that must be made out requires a great deal of time and effort and the combined cooperation of all officials in Bellingham.

I would like to take this opportunity to thank all volunteers, Civil Defense workers and clerical workers headed by Mrs. Gloria Lessard. Also, Dr. Thomas DePalo, Town Health Officer, Miss Lucy King, R.N., School nurses, Mrs. Joan M. Ferrelli and Mrs. Patricia Burns, and the Public Health Nurses for their splendid cooperation in providing information and their help in the various clinics.

Respectfully submitted,
Emile W. Niedzwiadek
Health Agent

REPORT OF THE MODERATOR

To the Honorable Board of Selectmen and the Citizens of Bellingham:

Gentlemen:

This is my report for the year 1967 showing the various appointments that I made in my capacity as moderator.

As directed by the voters of Bellingham under Article 33 of the Warrant for the annual town meeting of 1967, I appointed the following persons to serve on the School Building Committee:

Roland Beauregard	30 Irving Street
Virginia Chase	Mechanic Street
Normand J. Cox	292 Caroline Drive
Edward H. Crawford	35 Plymouth Road
John W. Fisher	4 James Street
Edward J. McCleary	35 Lisa Ann Drive
Arthur Provost	1 Liberty Street

During 1967 I made the following appointments to the 250th Anniversary Committee due to vacancies caused on the said committee by the death and resignation of some of its members. The appointments were made in the following order:

Robert Nutting	Coderre Drive
Timothy Hannigan	185 Mendon Street
Maurice Morin	Scott Street
Francis O. Forte	Caroline Drive
Lawrence J. Cibley	43 Arrowhead Road

The 250th Anniversary Committee is now made up as shown above, that is, the above-mentioned persons now constitute the full committee of five (5) members. The said committee was created under Article 12 of the Warrant for the annual town meeting of 1966.

During 1967 I also appointed Stanley Spont of Bliss Road to the Building Code Committee to fill a vacancy on the said committee.

I also appointed the following persons to the Finance Committee during 1967:

From Precinct No. 1
Ernest H. Cooper, 43 Easy St. (3 yrs.)
Conrad C. Denault, 46 Rondeau Rd. (2 yrs. - unexpired term)

From Precinct No. 2
Richard P. Sharon, 16 Farm St. (3 yrs.)

From Precinct No. 3
Henri Masson, 51 Linwood Ave. (3 yrs.)
Eugene J. Trottier, 20 Orchard St. (2 yrs. - unexpired term)

There were two appointments to unexpired terms on the Finance Committee because of the resignation of Dolores E. Martel of 40 Mansion St., in Precinct No. 3, and also the resignation of Clarence E. Fournier of 24 Rondeau Rd., in Precinct No. 1.

To the Capital Improvements Committee, a committee of nine, of which the moderator appoints two members, the term of Chester B. Hobbs of 17 Pearl St., ran out during 1967, and I reappointed him for a two year term. The said committee was created under Article 38 of the Warrant for the annual town meeting in 1966.

Respectfully submitted,
R. Bernard Biron, Moderator

FINANCE COMMITTEE

The following shows how the Finance Committee was constituted at the end of 1967.

Precinct 1

REPORT OF THE BELLINGHAM PLANNING BOARD

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of the Town:

The Planning Board experienced one significant event during the course of the year, namely only one subdivision plan was submitted and that plan was denied by the board as it didn't meet subdivision requirements. This is a complete reversal of the business conducted during the last seven years.

The board started this year with a complete re-codification of the Zoning By-Laws which were approved at the annual Town Meeting. This was the first major change in the last six years. Our Zoning By-Laws should be reviewed and upgraded with the normal growth of our town. This year the Planning board shall submit at the Annual Town Meeting in March 1968 proposals on the parking regulations of vehicles, an increase of lot sizes in the agricultural zone and the addition of a "Cluster Zoning" provision to the By-Laws.

Federal regulations today make it mandatory that Federal Grants be given only to towns that belong to a regional planning district. Therefore the Planning Board, through a Selectmens petition, received acceptance to the Metropolitan Area Planning Council. This also entitles us to area planning within the district. Much of the background work was accomplished by the firm of Phillip Herr Associates, presently under contract to the Planning Board as consultants.

With the able assistance of interested citizens of Bellingham a house to house survey was completed and published on the recreational needs of the community. This survey was undertaken to assist the new Board of Park Commissioners who will be elected to office in 1968.

The Planning Board conducted 46 meetings throughout the year. 39 of these were regular meetings, 4 were Public Hearings and 3 were joint meetings with other boards.

In 1968 the Planning Board programs will be the investigation of multi-house regulations with recommendations obtained from the Soil Survey Report completed in 1967 by the Conservation Commission. Also on our program is the exploration with recommendations of an open space program for the Town's consideration.

During the year the Planning Board has taken all steps necessary to insure that all aspects of the sub-division control laws have been upheld and enforced.

At this time we would like to thank all of the town boards and citizens who have been of assistance in helping the Planning Board in the performance of its duties.

Respectfully submitted,

Francis J. Prior, Chairman
Robert M. Chase

REPORT OF THE BOARD OF PUBLIC WELFARE

Perhaps the pages that this report is printed on should be fringed in black. Due to legislative action which will result in the abolishment of Local Boards of Welfare effective July 1, 1968, this will be the final report of your local Board.

1967 was a year of massive changes and massive increases in costs of Welfare. You were forewarned in our reports of the two previous years. It showed an increase in the cost of Aid to Families with Dependent Children due to the influx of younger families and their subsequent problems (caseload doubled in this year). The gradual decrease in the Old Age Category due to higher Social Security Benefits and more people being eligible for benefits. However, the most significant effect on the Department was the establishment of the Medical Aid Program, or as it is commonly known, "Medicaid", with the tremendous increase in eligible recipients, the subsequent costs for the payments of their medical needs and the increased need for more personnel to handle the program which has doubled the cost of administering the office.

In one year's time the Medical Vendor Payroll has risen from $4000. to $16,000. a month, and based on the law as it now stands will continue to increase. Be these things as they may, the Taxpayers of the Town will only be asked at the annual Town Meeting to appropriate enough money to cover the Town's share of the cost for the first six months of 1968. After that the cost of the whole Public Assistance Program will become the responsibility of the Commonwealth (with reimbursement from the Federal Government).

In that the Town Accountant's report includes a specific and detailed explanation of all of our income and expenditures, it would be repititious to include it here.

In that the Town Accountant's report includes a specific and detailed explanation of all of our income and expenditures, it would be repetitious to include it here.

We as a Board wish to thank all of the other elective boards, the local Fraternal and Civic Organizations for all of their past cooperation.

William E. Quirk, Director of Public Assistance
Hubert P. Lavallee, Chairman, Board of Public Welfare
William H. Cummings
Timothy Hannigan

REPORT OF THE BOARD OF SELECTMEN AND THE BOARD OF HEALTH

The Board is pleased to report that early in 1968 residents will be able to make toll free telephone calls throughout town. For many years a solution to the problem of being serviced by four separate telephone exchanges has been sought. In 1965 this Board appointed Norbert J. Martel, Robert O. Bliss and the late Stanley E. Chase to survey the possibility of bringing the town into a single calling area. Through the cooperation of the New England Telephone Company this will now be accomplished. The Board is grateful to these gentlemen and the Telephone Company authorities.

A new Post Office opened during the year and this solved another problem of general concern. Town residents are now serviced by a central office for the first time.

House numbering, where needed, was again continued under the direction of Ralph H. Baisley.

The town now holds membership in the Metropolitan Area Planning Commission. This organization is charged with co-ordinating a vast number of planning projects for the municipalities involved. It was deemed essential to join this body to properly plan for the future and also to have the town eligible for future federal assistance in such areas. Francis J. Prior was appointed as the town's representative.

There was no audit conducted by the Bureau of Accounts during 1967. The Board received notice from the Bureau that they would be unable to audit due to a heavy work load.

A new by-law pertaining to "junked automobiles", which was adopted at the 1966 annual town meeting, was utilized in a number of instances during the year.

We direct your attention to the report of Health Agent for information regarding other Board of Health matters.

The Board is concerned with the acts of vandalism which have caused considerable damage to the Center School, North Municipal Field, numerous street signs and other town property. Residents are urged to do everything possible to prevent such costly destruction. We direct your attention to the report of Town Counsel for information regarding legal actions against and on behalf of the town.

Interstate route 495 is scheduled for completion during 1969. It is hoped that a broadening of our tax base will result from having this important highway within our boundaries. The Industrial Development Commission is constantly attempting to encourage industrial and/or commercial firms to locate in our town, especially along route 495.

The Highway Department rebuilt Paine Street bridge during 1967. The old bridge was too narrow to accommodate the heavy volume of traffic which now flows over Paine Street. It is hoped that it will be possible to commence work during 1968 to widen and improve the street. Chapter 90 construction work continued on Blackstone Street. Speed limits, which had been established earlier, were posted along some of our more heavily traveled streets. The State Department of Public Works also approved sixteen stop sign locations. The Department notified our Board that it intended to rebuild North Main Street and the bridges over the Charles River and the railroad. There would be no cost to the town for construction of the bridges and highway. We are awaiting further word from the state relative to this most needed project. The Highway Department accepted delivery of a street sweeper. This new piece of equipment should aid considerably in making our highways safer and more attractive. There are three snow plows on order which will be used on our own trucks.

The Board negotiated with a representative of the Highway Department employees relative to working hours, conditions, etc. These sessions were inconclusive since the representative discontinued the negotiations and stated that the entire matter would be submitted to arbitration.

Police Chief Euclide A. Fleuette died on December 19. He had served as head of the department since 1937. The Board wishes to record in this report the sincere appreciation of the town and its citizens for the long and faithful service rendered by Mr. Fleuette. Norman L. McLinden was appointed Acting Police Chief on January 16 due to the illness of Chief Fleuette.

Four members of the Police Department were named permanent sergeants on May 2. They are Robert R. Cudak, Joseph L. Grassi, Bertrand H. Guerin and Norman L. McLinden.

A third police cruiser was purchased and put into service. Radar equipment was also obtained during the year.

The Board wishes to sincerely thank the many town officials and citizens who assisted in so many ways during the year.

Meetings of the Board are held weekly at 8:00 P.M. on Monday. All townspeople are cordially invited and encouraged to attend these meetings.

Respectfully submitted,

Joseph R. Scolavino, Chairman

REPORT OF THE 250TH ANNIVERSARY COMMITTEE

To the Citizens and Taxpayers of Bellingham:

The 250th Anniversary Committee appointed by moderator R. Bernard Biron is busy preparing the Town's birthday celebration.

The tentative date has been set for June 26, 27, 28, 29, 1969. The committee has met with numerous Towns in Massachusetts and New Hampshire to discuss their experience in planning such an event. The committee will strive to schedule the celebration with joy and purpose but with sound financial planning. The committee members include Robert Nutting, *Chairman*, Timothy Hannigan, *Vice Chairman*, Frank Forte, *events coordinator*, Maurice Morin, *financial secretary* and Lawrence Cibley, *public relations.*

The 250th Anniversary of Bellingham belongs to the citizens and taxpayers.

The committee is hopeful that everyone participates with interest in the planning and preparation of the events to assure the success of the celebration.

Respectfully submitted,
Robert E. Nutting, Chairman
Timothy Hannigan
Frank Forte
Lawrence Cibley
Maurice Morin

The town's tax title account was searched and brought up to date in the year 1967. Recommendations have been sent to the Tax Collector and Tax Assessors regarding this account.

As has been noted in the past the town has grown and is continually growing at a rapid pace. A realistic outlook must be made upon all Capital expenditures and improvements, so that the town will not be overburdened with numerous expenses in any given year.

Again I wish to express my appreciation for the cooperation received from those individuals whose assistance was required during this past year.

Respectfully submitted,

N. Andre Trudeau

Town Treasurer

REPORT OF THE ELEMENTARY SCHOOL BUILDING COMMITTEE TO THE PEOPLE OF BELLINGHAM

At the Town Meeting of July 22, 1964, the Townspeople of Bellingham voted to accept Article 9 which called for the appointment of an Elementary School Building Committee to "undertake the remaining preliminary work relative to construction of additional elementary school accommodation in the Town of Bellingham..." Accordingly, the Town Moderator, Andor deJony, named Richard C. Hill, Howard D. Richardson, Robert Fairbrother, Edward Brisson, Darrell Thonet, Clara Macy, and Carol Pierce to the Committee.

At a special town meeting held on December 12, 1964, the Town approved, on a 263-29 vote, the school plan at a cost of $991,700.00 from the sale of bonds, and further authorized the above-named to proceed as a building committee. J. Norman Cox, Gerald Coolbrith, and Donald Crosby were elected by the Committee to replace Darrell Thonet, Robert Fairbrother and Edward Brisson as vacancies occurred.

The firm of Korslund, LeNormand & Quann of Norwood, Massachusetts, was retained as Architect, and Donatelli Building Co., of North Providence, Rhode Island, was awarded the contract to build the 20 room elementary school for an estimated $828,105.00 on a site selected in the Wethersfield area of town. The land was purchased for $16,100.00 and $50,000.00 was allocated for original equipment and furnishings. Construction progressed without any substantial difficulties. The school was opened on schedule on September 7, 1966 and was dedicated the Clara Macy School on November 6, 1966.

There were nine change orders on the job which the Committee approved and which changed the construction cost to $832,995.25. The Committee was able to make several improvements in the project beyond those on the original schedule: namely, the Armstrong floor on the large physical education room and the landscaping work around the building.

The Clara Macy School was built to house the kindergarten through grade six and was so designed to accommodate children in this age grouping. Facilities were also included for a special education class.

Currently the Committee has a balance of $18,517.10, plus $1700 in unapplied for funds. We anticipate using this balance to make the necessary purchases that will be required to finish the project.

REPORT OF THE BELLINGHAM HOUSING AUTHORITY

To the Honorable Board of Selectmen and the Citizens of Bellingham:

The Bellingham Housing Authority, after many diligent hours of work and being held back in our endeavors by the State, have completed the design of the home for the elderly having five buildings each consisting of eight apartments, totaling forty apartments, and also a Community Building. Bonds have been purchased for the buying of land located on Depot Street and we anticipate breaking ground the first of April.

"3600 *Cluster Development*

Parcels in excess of ten acres located within the Agricultural District (A) may be subdivided and developed with clustered lots, provided that all lots so developed are shown on a subdivision plan approved and endorsed by the Planning Board as "Approved for Cluster Development." Such approval shall be granted only subject to the following conditions:

3610 The proposed development shall be, in the judgement of the Planning Board, superior to a conventional plan in offering safety and amenity for both the development and affected surrounding areas.

3620 The total number of lots shall not exceed the number of lots into which the land could legally be subdivided were it not for the provisions of Section 3600, to be estimated in the absence of an alternative conventional plan as being equal to 85% of the overall parcel area divided by the lot area requirements for the Agricultural (A) District as provided in Section 2600.

3630 The intensity of use requirements of Section 2600 for the Residence District (R) shall be conformed to for each lot.

3640 The lots for building purposes shall be grouped in a cluster or in clusters, and within each cluster the lots shall be contiguous.

3650 All remaining land in the tract, not contained in building lots or within road rights of way, shall be contiguous, or if not contiguous, in parcels of not less than one acre each in area, and of such size, shape and condition as to be usable for recreation.

3660 All such remaining land shall be either:

3661 Acceptable to and deeded to the Bellingham Conservation Commission, or

3662 Permanently dedicated, by covenant or comparable legal instrument, to the community use of the owners of the lots within the development tract, for recreational purposes only. Building coverage shall not exceed 5% in such dedicated areas. Maintenance shall be permanently assured through an incorporated homes association, operating under a recorded land agreement through which each lot owner in the development is automatically a member and each lot is subject to a charge for a share of the homes association expenses; or through comparable arrangement satisfactory to the Planning Board.

3670 Subsequent to approval of such subdivision plan, no land therein shall be sold and no lot line shall be changed in such way as to increase the number of lots or the extent of non-conformity with the provisions of Section 2600 of this By-Law."

or take any other action relative thereto.

AGE OF ADMISSION TO SCHOOL

Any child who becomes six years of age on or before January 1st of the year following the term when he wishes to enter school may be admitted into the first grade. Pupils under seven years of age who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September.

NO SCHOOL SIGNAL

No school announcements will be made at approximately 7 A.M. and intermittently thereafter over Radio Station WWON, WNRI, WMRC, WBZ, and WPRO.

In the event that schools do not close on any particularly bad day (rain, snow, cold, or other severe weather) parents are requested to use their own judgment in regard to sending their children to school.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Bellingham School Committee:

I am pleased to submit this, my tenth annual report as Superintendent of Schools.

For the tenth consecutive year we have experienced a substantial rise in our school enrollment. All school facilities are operating at maximum and the Center School was brought back into service this past September. With our anticipated growth it will be necessary in September of 1968 to enlist approximately seven additional classroom spaces. This will not only satisfy our growth needs but also will accommodate at the Elementary level, the reduction in class size philosophy.

As of October 1, 1967 our enrollment by school was as follows:

North	Center	Macy	South	Pinecrest	Keough	High School	Total
126	138	587	213	436	288	912	2700

During the month of October our annual school census was taken with the following results:

Children Ages 1 – 21

North District	Center District	South District	Total
892	2521	1667	5080

The need for additional classroom spaces should be immediately evident in light of the above. As has been previously reported, we have been identified as the fastest growing school system in the Commonwealth by State officials. At our present rate of growth it would appear that our enrollment by 1972 will be in excess of 5000 pupils taking into consideration the implementation of kindergartens, which is in accord with Chapter 572, Acts of General Court of 1965.

Curriculum guides at the Elementary level have been completed in the areas of language arts, special education, social studies and physical education. Guides in the remaining subject matter fields should be completed by June.

Although we have no statistical data at the time of this writing, our modern math program instituted this past year, is producing favorable results.

With the advent of 58 sections of pupils in grades one through seven, it now is impossible for one instructor in specialized areas to visit each class with the degree of frequency which we feel is required. The areas referred to here are vocal and instrumental music, art, and

physical education. The same could be said of our health services at the Elementary level. We now have approximately 1800 pupils in grades one through seven. In addition to hearing and vision tests, other records must be kept, home visits made and teacher consultations held. Our school physician made 1030 individual health appraisals and athletic examinations.

At the Secondary level, guides have been completed in all academic areas and preliminaries to self evaluation are well under way. Our aspiration is to be evaluated in the Fall of 1968 by the New England Association of Colleges and Secondary Schools. With additions to our staff it is now possible to give more in-depth instruction and service to our students. This is particularly so in our guidance, business education, music and industrial arts, which satisfy to a greater degree the pragmatic needs of our students.

Our drop out rate has reached a new low of less than 3% while 56% of our graduating class has continued formal academic pursuits. This is indeed a credit to students, parents and quality education.

We are now in the third year of our Evening Adult Education program and it is gratifying to see our adult population take advantage of this opportunity for additional instruction. "Project Encouragement" once again was offered during this past summer. We are exceedingly pleased with the results of this program. In cooperation with the regional district of the Office of Economic Opportunity we are operating a Head Start program at Macy School.

Our teachers serving in specialized disciplines perform their functions in a most commendable manner. Yet all our students in grades one through seven are not recipients of the full benefits for which the programs have been instituted. This limitation is due to the fact that we are understaffed in these areas. This can be said also of our health services. Our recommendation is that additional personnel be engaged in these areas.

During the Fall months, through the efforts and cooperation of the State Department of Education, we sponsored a workshop in reading for our elementary teachers. This, together with other efforts, will undoubtedly bring to our students greater reading benefits and provides another step in our pursuit of excellence. This workshop was offered at no expense to the community. It is recommended that remedial teachers together with a speech therapist be added to our staff.

It is further recommended that in the summer of 1968 we inaugurate a summer program for educational excellence and development at the secondary level. This program would afford an opportunity for our students to pursue more depth in a specific discipline or provide a make-up opportunity for those failing. It is further recommended that a similar opportunity be instituted for elementary students in 1969.

Our lunch program is operating very well. During the month of October, 1967, we served 4512 more lunches than we served during the same period in 1966. This is a credit to our cafeteria manager and staff.

It should be noted that as our system grows at such an unprecedented pace that there are attending problems, but through the efforts of our good staff we shall achieve our ambition of constant improvement.

We would be remiss in this report if we did not acknowledge the cooperation and efforts of the many publics with whom we come in contact daily. We are grateful not only to the general citizenry of our town, but also to the various town officials and agencies for their fine cooperation. We appreciate the support of the various other civic organizations and school related units of our community. Finally, we recognize the cooperation and industry of our total staff and the support given this office by you, the School Committee.

Respectfully submitted,
Anthony C. Minichiello
Superintendent of Schools

DAY PROGRAM

A. January – June 1967

1. Enrollment

At the beginning of 1967 128 boys were enrolled in the freshman class at the Blackstone Valley Regional Vocational Technical High School. The number of students in each of the departments was as follows: 14 in Auto Body, 13 in Auto Mechanics, 14 in Mill and House Carpentry, 14 in Drafting, 18 in Electronics, 26 in Machine Shop, 14 in Metal Fabrication, and 13 in Plant Maintenance. When we started with 132 boys in September of 1966, we fully expected that approximately ten percent of the students would want to return to their home town schools by the beginning of the second semester. It was therefore very gratifying to have 97% of our original enrollment at the beginning of the second semester.

2. Exploratory Program

During the first semester all students had been given an opportunity to spend approximately two weeks in each of the eight departments so that they would have some knowledge of and experience in each of the programs offered by the school. At the end of the first semester all students were given an opportunity to select any course in the program and only 12 boys decided to change from their original choices, made before they entered the school. Their original choices were based on the results of their aptitude tests and conferences with our school guidance counselor. Because the changes in the choice of vocational program were so minimal we feel that our program of aptitude testing and guidance counseling is very effective.

3. Pupil Selection for the Fall of 1967

During the months of January and February all the schools in the member towns were visited by the Superintendent-Director in order to give information to the boys in the eighth grade about the courses that are offered at the Blackstone Valley Regional Vocational Technical High School. Applications were distributed and the students were requested to indicate their first, second, and third choices among the courses offered. Specially designed information forms were given to each school administrator, to be completed for each boy who planned to make application for admission to the Blackstone Valley Regional Vocational Technical High School.

At a later date applicant groups from the various towns were brought to the school so that they could visit each of the eight departments and actually see the program in operation. During the day they were given a series of aptitude tests involving verbal reasoning, numerical ability, mechanical reasoning, abstract reasoning, and spatial relations. The scores on the above tests and the information sheet provided by the sending school were evaluated in order to produce a profile of each applicant's characteristics. Each applicant's profile was recorded on a compilation sheet which served to identify the most qualified students in each town. Every effort was made to admit the best qualified boys in each town, to give them their course preference, to distribute the courses as equally as possible among the towns, and to select each boy for the course in which he appeared to have the best chance of success. Due to the lack of space we were able to admit only 120 boys out of the 321 that applied for admission

4. Dedication of the School

Sunday March 19, 1967 was the most memorable day of 1967 because on that day the Blackstone Valley Regional Vocational Technical High School was dedicated. This marked the fulfillment of the dream of many individuals who had worked tirelessly over a period of many years to create a school that would fill a great need for many of the boys of the region.

Dr. Owen B. Kiernan, Commissioner of Education of the Commonwealth of Massachusetts, gave the dedicatory address. Mr. Walter J. Markham, Director of the Massachusetts Bureau of Vocational Education was also a guest speaker on this occasion. After the dedication ceremony all were cordially invited to inspect the new school. The interest and enthusiasm of the citizens of the region was evidenced by the thousands that came to the dedication and inspection.

B. September – December 1967

1. Enrollment

In September we started our second year of operation with 126 sophomores and 120 freshmen. The number of boys from each of the towns was as follows: 22 from Bellingham, 13 from Blackstone, 10 from Douglas, 30 from Grafton, 13 from Hopedale, 5 from Mendon, 42 from Milford, 32 from Millbury, 4 from Millville, 29 from Northbridge, 12 from Sutton, 10 from Upton, and 24 from Uxbridge.

2. Physical Education

With our excellent gymnasium, we were able to institute a physical education program that more than met the new requirements set up by the State Board of Education.

In the middle of October we started an intra-mural basketball program in which every boy who was physically able participated. This was followed by a basketball game between the faculty and the students on the day before Thanksgiving.

We have organized a junior-varsity basketball team and have scheduled 18 games with other junior-varsity teams in the area. Next year we plan on having both junior-varsity and varsity basketball teams.

3. Student Government

The students elected representatives from each of the eight departments to draw up a student government constitution with the advice and guidance of a faculty advisor. This constitution was ratified by the student body and approved by the School Committee. The governing body is known as the Student Senate and is composed of one representative from each of eight departments.

On December 1 the students elected Kenneth Mathieu to represent the Blackstone Valley Regional Vocational Technical High School on Good Government Day which is held every year in the State House and is sponsored by both branches of the State Legislature.

4. Cafeteria

We are very proud of our cafeteria staff because of the outstanding service they render to our students and we were very happy to have our opinion confirmed when our cafeteria was rated as one of the best ten in Massachusetts by the Massachusetts School Lunch Program.

ADULT TRAINING PROGRAMS

1. Automotive Machinist Program

On July 10, 1967, after many months of planning, the automotive machinist training course for adults was started at the Blackstone Valley Regional Vocational Technical High School. This is the only program of its type in the United States and is the result of the cooperation between the Automotive Wholesalers Association of New England (A.W.A.N.E.), the Massachusetts Vocational Bureau, the Division of Employment Security, and the Blackstone Valley Vocational Regional School Committee.

All of the major equipment was contributed by the principal manufacturers serving the automotive after-market, and all of the money for instruction and supplies was furnished by the Federal Government. Thus the entire expense of this program is borne by A.W.A.N.E., the equipment manufacturers, and the U.S. Government.

Thirty young men were enrolled in this course, which will train them to operate any of the intricate machines used in automotive jobber machine shops. They attend school from 8:00 A.M. to 4:30 P.M. five days a week for 44 weeks. Upon completion of the course they will receive a certificate of graduation and are guaranteed a well-paying job by members of A.W.A.N.E.

2. Evening Trade Extension Courses

The evening trade extension courses for adults started Monday evening, September 25, 1967. These classes are open to persons over 16 years of age who are not attending school and who can show evidence of trade contact with the specific training desired. The following courses were offered: Auto Body Repair, Auto Mechanics, Mill and House Carpentry, Electronics, Machine Shop, Metal Fabrication, Plant Maintenance, and Blue Print Reading. A total of 180 men and women were enrolled in the eight courses and many others applied but could not be accepted due to the lack of space in our shops.

3. Nursing Aide Program

Early in September several of the Nursing Homes in the Region requested assistance from the Blackstone Valley Vocational Regional School District Committee in organizing and operating a training program for nursing aides employed in the region. After several meetings with representatives of the nursing homes and hospitals in the region the Regional School Committee agreed to operate a special program to upgrade nursing aides.

Through the cooperation of the Massachusetts Vocational Bureau, Federal funds were obtained which will pay for the entire cost of the program.

Due to the tremendous interest in this program it was necessary to have two sections. Classes meet for two hours per night, two nights per week and will continue for twenty weeks. The courses are expected to end on April 9 and graduation ceremonies are scheduled for April 11, 1968.

CONCLUSION

At the end of our first full year of operation, we feel that the Blackstone Valley Regional Vocational Technical High School is operating efficiently and serving the people of the area effectively in several divergent capacities, as shown in the number of students who enrolled in the various school training programs:

1. About 250 freshmen and sophomore boys in the day program.
2. 30 young men in the Automotive Machinist course.
3. 180 men and women in the Evening Trade Extension program.
4. 43 women in the Nursing Aide classes.

Thus we have enabled about 500 people to further their education through our school.

The morale, standards, and cooperative spirit of the school staff continue to remain high, and we look forward with confidence to an even brighter and busier future for the Blackstone Valley Regional Vocational Technical High School.

APPORTIONMENT OF COSTS INCURRED BY THE DISTRICT

(A) Classification of Costs

For the purpose of apportioning assessments levied by the District against the member towns, costs shall be divided into two categories: capital costs and operating costs.

(B) Capital Costs

Capital costs shall include all expenses in the nature of capital outlay such as the cost of acquiring land, the cost of constructing, reconstructing and adding to buildings, and the cost of remodeling or making extraordinary repairs to a school building or buildings, including without limitation the cost of the original equipment and furnishings for such buildings or additions, plans, architects' and consultants' fees, grading and other costs incidental to placing school buildings and additions and related premises in operating condition. Capital costs shall also include payment of principal of and interest on bonds, notes or other obligations issued by the District to finance capital costs.

(C) Apportionment of Capital Costs

Capital costs shall be apportioned annually in December for the ensuing year as follows:

(1) Each member town's share of the capital costs incurred in connection with the construction, equipping and placing in operation of the initial district school building, including the payment of principal of and interest on bonds, notes or other obligations of the District to finance such capital costs, shall be determined by computing the ratio which the sum of its public school male pupil enrollments in grades nine through twelve, inclusive, on October 1 of the three years next preceding the year in which the Committee votes to authorize the incurring of such capital costs bears to the sum of the public school male pupil enrollments in grades nine through twelve, inclusive, of all the member towns on October 1 of the same three years; and in the case of capital costs consisting of the payment of principal of the interest on bonds, notes, or other obligations issued by the District, the ratio shall not be changed during the period in which such bonds, notes or other obligations are outstanding, except as provided in subsection VII(A). For the purpose of this clause (1) of Section (A) above, public school male pupil enrollments shall be defined as the number of male pupils in grades nine through twelve, inclusive, residing in each member town and receiving education at such town's expense.

*Ratio is each member town's share of the capital costs.

*The method of calculating the ratio for each town is shown on pages 8, 9, and 10 of the 1965 Annual Report.
